

Join a paid online discussion on weight and fertility research

Join researchers & healthcare providers to learn more & share your views about research exploring how weight affects both male and female fertility

Thursday 2nd September 2021: 17.00 - 18.30

Who can attend?

Individuals who:

- are aged 18 years old or over;
- have a high body mass index or obesity;
- have an interest in how weight may affect fertility; and/or
- are planning a pregnancy/are pregnant/have been pregnant (or partner is/has been pregnant)

Further details:

- Taking place via Zoom (computer or phone).
- After an introduction, attendees will be invited to share their views in smaller breakout groups (split by male/female)
- Attendees will be paid for their time and given a contribution to wifi/data expenses
